

We are going for a **clean, horizontal layout** with the **Sage Green** aesthetic (see the landscape reference image I sent). The goal is "Premium Digital Library"—everything is free, but it looks expensive.

Here is the checklist:

## 1. Global Theme (The "Sage" Vibe)

- **Background:** Switch from the Dark Space theme to a **Soft Sage Green Gradient**.
  - Try this CSS Gradient: `bg-gradient-to-r from-[#8E9E93] to-[#Aebdb2]` (Adjust to match the image).
- **Font:**
  - **Headings:** Use a big, bold font (like Playfair Display or DM Serif) for the titles.
  - **Text Color:** White (`#FFFFFF`) for main text.
- **Glassmorphism:** Use "frosted glass" panels for the buttons and modal backgrounds (White at 20% opacity + blur).

## 2. The Hero Section (Horizontal Layout)

- **Reference:** The landscape image with "Bagaimana Mungkin" text.
- **Layout:** Standard Split Screen.
  - **Left Side:** Large Title + Quote + "Start Reading" Button.
  - **Right Side:** The 3D Book Stack image sitting on a glass surface.
- **No Search Bar:** Remove the big search bar from the center. Move a small search icon to the top right corner if needed.

## 3. The Library (The "Shelf" System)

- **Remove the Carousel:** The current swipe slider is too generic.
- **New Design:** Build a "**Digital Bookshelf**".
  - Create a clean white "ledge" or line across the screen.
  - Place the book covers *standing up* on the line.
  - Add a soft shadow below them so they look grounded.
- **Categories:**
  - **Keep:** Fiction, Thriller, Mystery, Sci-Fi.
  - **Delete:** "Self-Help" (Remove this category entirely).

## 4. New Section: Comics & Manga

- Add a new section at the very bottom.
- **Design:** Use a blurred Anime/Manga background image.
- **Overlay:** A big glass card that says "**Comics Collection - Coming Soon**".

## 5. Functionality (Read & Download)

- **Interaction:** Clicking a book on the shelf opens a **Modal**.
- **Buttons:** Inside the modal, show two equal buttons:
  - [ **Read Now** ] -> Opens the PDF Viewer (Full access, no limits).
  - [ **Download PDF** ] -> Direct file download.
- **Music:** Keep the background music but switch tracks to "Lo-Fi / Ambient" to match the green theme.

### Summary:

1. [ ] Green Gradient Background.
2. [ ] Horizontal Hero (Text Left, Books Right).
3. [ ] Replace Carousel with "Shelves".
4. [ ] Remove Self-Help / Add "Comics Coming Soon".

I'm sending the reference images now so you can match the colors!
